

Original papers

Optimizing capacity of signalized road network with reversible lanes <i>Jian Wang, Wei Deng</i>	1
Modelling bus delay at bus stop <i>Yueying Huo, Wenquan Li, Jinhua Zhao, Shoulin Zhu</i>	12
Application of nonparametric regression in predicting traffic incident duration <i>Shi Wang, Ruimin Li, Min Guo</i>	22
Design of timetable for airport coach based on 'time-space' network and passenger's trip chain <i>Jing Lu, Zhongzhen Yang, Xiadan Dong, Xiaocong Zhu</i>	32
Evaluation of the pre-detective signal priority for bus rapid transit: coordinating the primary and secondary intersections <i>Min Yang, Gang Sun, Wei Wang, Xin Sun, Jian Ding, Jing Han</i>	41
Optimal location and size of logistics parks in a regional logistics network with economies of scale and CO ₂ emission taxes <i>Dezhi Zhang, Richard Eglese, Shuangyan Li</i>	52
New pricing theory of intelligent flexible transportation <i>Tamás Andrejszki, Árpád Török</i>	69
Investigating boundary effects of congestion charging in a single bottleneck scenario <i>Ying-En Ge, Kathryn Stewart, Yuandong Liu, Chunyan Tang, Bingzheng Liu</i>	77
Portuguese two-lane highways: modelling crash frequencies for different temporal and spatial aggregation of crash data <i>Jocilene Otilia da Costa, Alice Prudêncio Jacques Maria, Paulo António Alves Pereira, Elisabete Fraga Freitas, Francisco Emanuel Cunha Soares</i>	92
A segmentation based analysis for measuring customer satisfaction in maritime transportation <i>Yeliz Ekinci, Nimet Uray, Füsün Ülengin, Cem Duran</i>	104
A decision-making model to design a sustainable container depot logistic network: the case of the port of Valencia <i>Antonio Palacio, Belarmino Adenso-Díaz, Sebastián Lozano</i>	119
Expert system using multi-objective optimization of the direct current railway power supply system <i>Manuel Soler Nicolau, Jesús López, Santiago Tapia, José Manuel Mera</i>	131
Optimization of natural gas transport pipeline network layout: a new methodology based on dominance degree model <i>Zhenjun Zhu, Chaoxu Sun, Jun Zeng, Guowei Chen</i>	143
Relationships between the motorcyclists' behavioural perception and their actual behaviour <i>Darja Topolšek, Dejan Dragan</i>	151
Formulating alcohol-influenced driver's injury severities in intersection-related crashes <i>Qiong Wu, Guohui Zhan</i>	165
Monitoring of current collectors on the railway line <i>Krzysztof Karwowski, Mirosław Mizan, Dariusz Karkosiński</i>	177

EDITORIAL BOARD

EDITOR-IN-CHIEF

Olegas PRENTKOVSKIS (E-mail: olegas.prentkovskis@vgtu.lt)
Vilnius Gediminas Technical University, Lithuania
Academician of the Ukrainian Transport Academy (Foreign Member)
Research interests: traffic safety, vehicle dynamics, traffic accident, transport engineering, mechanical engineering, transport education

DEPUTY EDITOR-IN-CHIEF

Raimundas JUNEVIČIUS (E-mail: raimundas.junevicius@vgtu.lt)
Vilnius Gediminas Technical University, Lithuania
President of the Lithuanian Society of Automotive Engineers (LSAE)
Member of the International Federation of Automotive Engineering Societies (FISITA)
Research interests: transport engineering, vehicle dynamics, traffic flow modelling, mechanical engineering

MANAGING EDITOR

Paulius SKAČKAUSKAS (E-mail: paulius.skackauskas@vgtu.lt)
Vilnius Gediminas Technical University, Lithuania
Research interests: transport engineering, vehicle dynamics, vehicle modelling, traffic safety, mechanical engineering

ASSOCIATE EDITORS

For highway and pavement engineering

Kasthurirangan GOPALAKRISHNAN
Iowa State University, USA
Research interests: transportation infrastructure systems, sustainable highways and pavements, artificial intelligence applications

For railway vibration and train/track modelling

Georges KOUROUSSIS
University of Mons, Belgium
Research interests: railway dynamics, railway-induced ground vibrations, vibration signal processing, multibody modelling

For transport planning and travel demand management

Carlo Giacomo PRATO
University of Queensland, Australia
Research interests: traffic safety, transport planning, transport modelling, travel behaviour

For vehicle and traffic safety

Vidas ŽURAILIS
Vilnius Gediminas Technical University, Lithuania
Research interests: vehicle, traffic safety, dynamic, driving

For other research fields

Raimundas JUNEVIČIUS (Deputy Editor-in-Chief of the Research Journal TRANSPORT)
Paulius SKAČKAUSKAS (Managing Editor of the Research Journal TRANSPORT)

EDITORS

Andrus AAVIK

Tallinn University of Technology, Estonia
Research interests: road pavement structural condition, road construction, road maintenance technologies

Dariusz BAZARAS

Vilnius Gediminas Technical University, Lithuania
Research interests: transport management, logistics

Žilvinas BAZARAS

Kaunas University of Technology, Lithuania
Research interests: transport engineering, mechanical engineering

Andrii BIELLIATYNSKYI

National Aviation University, Ukraine
Academician of the Ukrainian Transport Academy
Research interests: transport systems, civil engineering, road engineering, bridge engineering

Marijonas BOGDEVIČIUS

Vilnius Gediminas Technical University, Lithuania
Member of the European Automotive Engineers Cooperation (EAEC)
Research interests: transport engineering, vehicle dynamics, traffic flow, pipeline engineering, fluid dynamics, mechanical engineering,

John D. BULLOUGH

Lighting Research Center, Rensselaer Polytechnic Institute, USA
Research interests: transportation lighting, visual performance, mesopic vision, glare, light pollution

Gintautas BUREIKA

Vilnius Gediminas Technical University, Lithuania
Research interests: railway transport technology, efficiency of rolling-stock exploitation, rail traction, rail vehicle dynamics, rail safety and security, railway transport and environment protection, railway transport energetics

Ivan DYAKOV

Ulyanovsk State Technical University, Russian Federation
Academician of the Russian Transport Academy
Research interests: transport engineering, mechanical engineering, industrial engineering, design, optimization

Ying-En GE

Shanghai Maritime University, China
Research interests: network analysis and modelling, transport and environment, demand management, port and shipping operations

George Anastasios GIANOPOULOS

Hellenic Institute of Transport, Center for Research and Technology Hellas (CERTH), Greece
Research interests: freight transport, transport policy, logistics, traffic management, rail transport, terminal operation

Mirano HESS

University of Rijeka, Croatia
Research interests: ship operations, ship management, port cargo handling, maritime safety

Valentin IVANOV

Ilmenau University of Technology, Germany
Research interests: vehicle dynamics, automotive control systems, computational intelligence, terramechanics

Jolanta JANUTĖNIENĖ

Klaipėda University, Lithuania
Research interests: mechanical engineering, transport engineering, mathematics, reliability

Jadranka JOVIĆ

University of Belgrade, Serbia
Research interests: sustainable transport, transportation, transport planning, transport demand, street network, road transport, traffic engineering

Igor KABASHKIN

Transport and Telecommunication Institute, Latvia
Corresponding Member of the Latvian Academy of Sciences
Research interests: transport engineering, telecommunications, telematics

Uroš KLANŠEK

University of Maribor, Slovenia
Research interests: construction management, optimization in engineering, project scheduling, transportation planning

Iryna KLYMENKO

National University of Transport, Ukraine
Research interests: road engineering, transport economics

Sergejus LEBEDEVAS

Klaipėda University, Lithuania
Research interests: transport engineering, engine engineering, alternative fuels

Pavlo MARUSCHAK

Ternopil Ivan Pulu'uj National Technical University, Ukraine
Research interests: pipeline transport, industrial transport, maritime transport, air transport

Gabriella MAZZULLA

University of Calabria, Italy
Research interests: transportation planning, transit system, service quality, road safety

Sergey PANIN

Institute of Strength Physics and Materials Science, Siberian Branch of Russian Academy of Sciences, Russian Federation
Research interests: mechanical engineering, materials science, composite materials, wear, fatigue, experimental mechanics

Orazio PELLEGRINO

University of Messina, Italy
Research interests: road safety, driving behaviour, drivers' visual behaviour

Saugirdas PUKALSKAS

Vilnius Gediminas Technical University, Lithuania
Research interests: transport engineering, mechanical engineering, internal combustion engines, alternative fuels

Laurencas RASLAVIČIUS

Kaunas University of Technology, Lithuania
Research interests: engine engineering, diesel fuel, advanced fuel components, hybrid electric vehicles

Josep Maria SALANOVA GRAU

Hellenic Institute of Transport, Center for Research and Technology Hellas (CERTH), Greece
Research interests: urban mobility, intelligent transport systems, big data, cooperative mobility systems, traffic flow modelling and simulation, applications of optimization theory on transport

Wafaa SALEH

Edinburgh Napier University, United Kingdom
Research interests: transport engineering, travel behaviour, transport safety, transport and the environment, travel demand management

Marek SITARZ

University of Dąbrowa Górnicza, Poland
Research interests: railway transport, logistics

Henrikas SIVILEVIČIUS

Vilnius Gediminas Technical University, Lithuania
Research interests: transport engineering, road engineering, expert methods, multi-criteria decision making

Juris SMIRNOVS

Riga Technical University, Latvia
Research interests: road traffic safety, road engineering

Edgar SOKOLOVSKIJ

Vilnius Gediminas Technical University, Lithuania
Research interests: vehicle dynamics, road traffic accidents, traffic safety, transport engineering

Ulla Pirita TAPANINEN

University of Turku, Finland
Research interests: maritime economics, logistics

Ádám TÖRÖK

Budapest University of Technology and Economics, Hungary
Research interests: road transport economics, road transport modelling, energetics, road safety

Elen TWRDY

University of Ljubljana, Slovenia
Research interests: transport systems, maritime transport, ports, terminals

Jānis VĪBA

Riga Technical University, Latvia
Corresponding Member of the Latvian Academy of Sciences
Research interests: classical mechanics, vibrations, collisions, optimal control, synthesis of vibroimpact systems

Yonggang WANG

Chang'an University, China
Research interests: traffic data modeling, traffic accident analysis, travel behavior

Dali WEI

Institute of Transportation Studies, University of California Berkeley, USA
Research interests: intelligent transportation systems, traffic data analysis, traffic optimization, traffic flow

Irina YATSKIV (JACKIVA)

Transport and Telecommunication Institute, Latvia
Research interests: traffic modelling, transport modelling, applied statistical analysis
